

Traffic Calming Request Form

Thank you for your interest in traffic safety in your neighborhood. Please take a moment to read and fill out this form which will assist staff with responding to your request for a traffic calming device on your street. Prior to submitting a request form to install a traffic calming device, please read Berkeley County Ordinance 20-12-51 carefully to ensure your street meets all listed requirements.

STREET NAME: _____

APPLICANT NAME: _____

ADDRESS: _____

PHONE: _____ EMAIL: _____

1. Is the requested street a Berkeley County maintained, local, residential, paved, public street with a minimum of fifty feet of right-of-way? YES NO
2. Does the street have a speed limit of 25 miles per hour or less? YES NO
3. Does the street have average speeds that exceed the posted speed limit? YES NO
4. Does the requested street have a minimum average daily traffic count of 350 vehicles and a maximum average daily traffic count of 4,000 vehicles? YES NO
5. Is speeding occurring during specific times of day or days of the week? YES NO
If yes, please specify. _____
6. Please provide a signature and contact information for at least 85% of the residents living on that street in support of a traffic calming device.

Print Name:	Address:	Phone:	Email:	Signature:

*Please see additional pages for signatures.

**Once the traffic calming application is received, the Berkeley County Engineering Department will confirm the requirements are met and determine if a traffic calming device is warranted. The County Engineering Department will then determine appropriate location for traffic calming device and provide a written cost estimate for the design, installation, signage, and construction of the device to the contact person for the request.

***Once payment in full has been made by the requesting party to the County, the County Engineering and/or the County Roads and Bridges Department shall schedule the installation of the device. Thank you for taking the time to complete this Traffic Calming Request Form. Upon receiving a completed form, staff will arrange for a traffic volume and speed survey - typically undertaken in the fall or spring. The data will then be used to determine whether traffic calming devices are warranted.
